1987. The first of our family was born.

BOT TECH

BRITISH
ADVANCED ROBOTICS

Looking back, he was a simple machine, but an historic start-point, nonetheless.

- Limited in functionality
- Only 1 program (walk)
- Couldn't communicate
- Quickly exhausted the power pack
- But an important start ...

His name was 'Robbie'.

BOT TECH

BRITISH
ADVANCED ROBOTICS

As PCBs got smaller, our ambition got greater.

- Eric could walk AND talk
- Language was basic but a start
- Power lasted X7 times longer
- Expanded program repertoire

1993. Along came 'Eric'.
